

ATOM-N2020

Call for papers

Dear Sir/Madam,

We have the pleasure to invite you to participate to the 10th edition, jubiliary, of the International Conference “Advanced Topics in Optoelectronics, Microelectronics and Nanotechnologies” - **ATOM-N 2020**, which will be held in Constanta, Romania (on the seaside of the Black Sea) during August 20th - 23th, 2020.

The main goal of the conference is to provide an interdisciplinary forum for educators, researchers, engineers and students to report results, improvements and new approaches for education, research and development activity in advanced materials, nanotechnologies and optoelectronics.

ATOM-N2020 with its truly international character promotes the development of relationships between former central and eastern Europe and with countries from all parts of the world.

Authors are invited to submit electronically previously unpublished papers relevant to the conference topics. Papers will be reviewed upon one short paper (abstract) to be included in the Conference preliminary program.

Your research will be published in the SPIE Digital Library, providing global exposure to your work in the world's collection of SPIE Proceedings.

ATOM-N 2020 will be a great opportunity to meet researchers in optoelectronics, nanotechnology, molecular technology and advanced materials field.

Main topics:

- advanced materials and new technologies;
- nanoscience and nanoengineering;
- photonics micro- and nanotechnologies;
- optical signal processing;
- diffractive and micro optics;
- photonic materials and devices;
- instruments, sensors and microsystems;
- analysis and simulation
- biomedical optoelectronics

More details can be found at <http://www.atom-n.ro>

Deadlines

Abstract submission: **30 January 2020**

Notification of acceptance: **25 March 2020**

Manuscript due date for authors: **25 May 2020**

We look forward to receiving your abstract !

With kindest regards, on behalf of the Organizing Committee,

Marian Vladescu, Ph.D.

Conference manager
